About SHIRAZ:

For more than 2000 years Shiraz has been celebrated as the heartland of Persian culture and has become synonymous with education, nightingales and poetry. It was one of the most important cities in the medieval Islamic world and was the Iranian capital during the Zand dynasty (AD 1747–79). Shiraz is home to the mausoleums of Hafez and Sa'di, both major pilgrimage sites for Iranians and thus is dubbed as the City of Poets. It's also home to splendid gardens, exquisite mosques and whispered echoes of ancient sophistication that reward those who linger longer than it takes to visit nearby Persepolis, the Palace of the greatest kings of the Persian Empire at its height of power.
